REPUBLICAN CAUSE **GETS HARD BLOW**

Rodenberg's Speech Displeases Hearers and Attorney Streuber Urges Support of Democratic Nominee.

The Republican cause in Madison Couny has been struck two severe blows by nembers of the party. The first was by Congressman W. A. Rodenberg of East St. Louis, who is for the fourth time a candidate in the Twenty-second Dis rict. Mr. Rodenberg claimed that the Democrats had no chance because divine Providence was on the Republican side and taking an active interest in its welfare. The assertion was made to an audience of 500 at Edwardsville.

"My friends," he observed, "I have notleed that the little birds sing their sweetest, the flowers of spring blossom with more splendor, the rain descends more cat, the flowers of spring blossom with more splendor, the rain descends more gently and the Lord of Hosts showers his blessings more profusely on our beloved land during a flepublican administration than in a Democratic one."

While the Republican claim that good crops was a natural concomitant of Republican times was nothing new, the assertion that the Lord favored the Republican cause so far exceeded the wildest claims of even General Grosvenor that the audience was paralyzed with astonishment and there was considerable indegration. The other action which dampened the zeal of the party occurred Thursday night at Highland. The Roosevelt-Deneen Club held a meeting at the Turner Hail and Attorney Joseph P. Streuber was the speaker. After advocating Republican principles and the success of the national and State tickets, Streuber closed by advising the Republicans to vote for Fremont C. Kuhnen, the Democratic candidate. Instanty the house was in an uproar. Most of those present cheered the sentiment, but some left the hall.

When the news spread about the county yesterday there was consternation as the action meant that the Democratic candidate had been indorsed by all factions of the Republicans on the east side of the county.

At the Republican Convention in Alton St. Joseph's Hospital almost ever since breakdown, has recovered sufficiently to leave his room for short periods.

He was out for a drive this afternoon, the first since he came to St. Joseph. Doctor T. H. Doyle, Mr. Wilson's physician, says he will be himself again soon. Asked if he would permit Mr. Wilson to take part in the close of the campaign, Doctor Doyle said:

"He is willing and eager, but I don't think it should risk as much as that and court a reverse. Besides, I do not think it necessary that he should do so. Ha friends are taking the best possible care of his interest, and the people understand that he has been really unable to get among them himself. They know from his campaign for the nomination that he would have been in the thick of the fight if his strength had not failed. In view of the satisfactory condition of the campaign, there is no necessity for taking any sort of risk."

the Republicans on the east side of the county.

At the Republican Convention in Alton the faction headed by Colonel Louis E. Kinne and Charles E. Tufflit was knocked out and Highland totally ignored. They immediately went to work for the Democratic candidate. Attorney Streuber was the leader of the opposing Republican faction, and his action means the unanimous indorsement of Kuhnen.

HAPPENINGS IN ILLINOIS CITIES AND TOWNS HEAVY SALES OF WABASH COMMON

Believed That Subscribers to the Pittsburg Terminal Syndicate Are Unloading Some of Their Securities.

Wall street is much puzzled over the steady selling of Wabash common. It is elleved that the syndicate which built the Pittsburg extension received \$10,000,000 of the common stock, and that it is this stock which is being sold. The subscribers have been "tied up" for nearly four years, and are now selling to get back some of the money they put in the syndi-

While there has been considerable doubt expressed as to the ability of the Pittsburg Terminal Company, which is a Gould proposition, having a traffic arrangement with the Wabash, being able to meet its charges, resulting from an investment of 33,000,000, expended in getting into Pittsburg and acquiring the West Side Belt line, coal lands and other properties, it is the consensus of opinion that the ton nage contracts made with the steel mills and the coal traffic will be more than sufficient to enable the company to meet all of its obligations

Regarding the Pittsburg Terminal Com pany, attention is called to the fact that while it is a Gould proposition, its success while it is a Gould proposition, its success or failure from a financial standpoint will not affect the Wabash, as between the two companies there is only a traffic agreement, the Wabash being in nowise responsible for the obligations of the Pittsburg company.

However, President Ramsey has to a great extent staked his reputation upon the Pittsburg project, and all rumors to the contrary notwithstanding, it is safe to say that he will not resign the helm until he has proved that this project is a good investment, even though it required such an enormous sum to finance.
